

E-Farm

Description:

E farm is a B2B aggregator platform that connect farmers to the consumers. The main services of E farm are providing an agri marketplace & agri solution to the farmers. We are providing Three main services : Food Chain based platform, Agricultural Equipment Maintenance & renting, Agri solution/Consultancy.

Farmers do not get proper fair price for their produced products . The price at which the same product reaches the customer due to brokers or some syndicate traders is nothing but discrimination's E farm will work as a bridge between the farmers & the customers as supply chain ecosystem. Consumers are very much concerned about the quality and source of the foods now more than ever. E Farm is creating a supply chain that will ensure providing fresh foods(milk, vegetables, fishes etc.) & also plants, seeds etc. according to the demand of the customers.

Agricultural equipment includes wide range of items i.e tractors,tillers,seed swing machinery & numerous tools. After analyzing the market demand we will provide those equipment's in rural areas.

E Farm will also provide agro solution to the farmers in many cases such as diseases of their products, diseases of their domesticated animals as well as providing advice on the fertilizer, nutrients, irrigation, seed variety, plant protection, harvesting, and post-harvest management system based on subscription package.

1. Which type of products do you produce or provide?

Tick all that apply.

- ☐ Agri Food(Vegetables)
- ☐ Fishes
- ☐ Dairy Products
- ☐ Agri Food(Honey,Chui Jhal etc)
